## WHITLAM JULES £189

I've loved every Whitlam putter I've tried, but never been able to use one full time. As good as they are, I haven't found one that fits my stroke. (Do they do ones that small? - Feat. Ed) This face balanced Whitlam Jules might just do the job. The extra tungsten weighting combines with the Aluinser insert to make this a really forgiving head in a small package.
